To whom it may concern.

We would hereby like to thank SpaceLabs for their services in moving our company on 28 June 2017.
The prices were very competative, the staff were friendly and helpful and the service was impecable.

They arrived early on the morning of the move and had exactly enough staff for our requirements, within no time at all everything was packed and out the old office. We had a tricky driveway and they negotiated it perfectly. Even when the rain came they were equipped with tarps and blankets to protect everything.

Our safe weighed over 500KG and they moved it with no damage from a tight space in the old office to a tight space on the second floor in our new office.

The boxes and wrapping they provided were perfect for all our office goods and packing and unpacking of the boxes was seamlessly done.

A special note to Amanda, you jumped in and helped whenever possible and your attention to detail is commendable. We finished late that night and you were there every step of the way- Thank you.

Please feel free to use us as a reference for any future business. Our sincere thanks for all your effort.

Kind regards

Hedy Van Zyl
